

# NANOSCIENCE SUMMER INSTITUTE FOR MIDDLE SCHOOL TEACHERS

Bring **nanoscience** to your classroom!

Stanford University

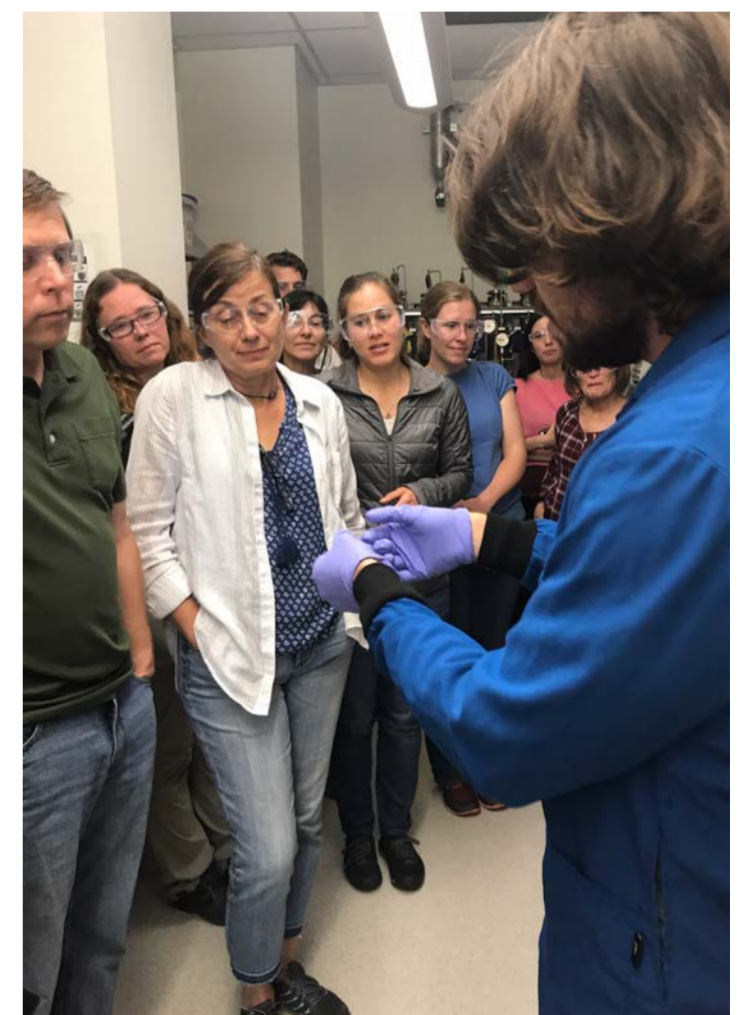

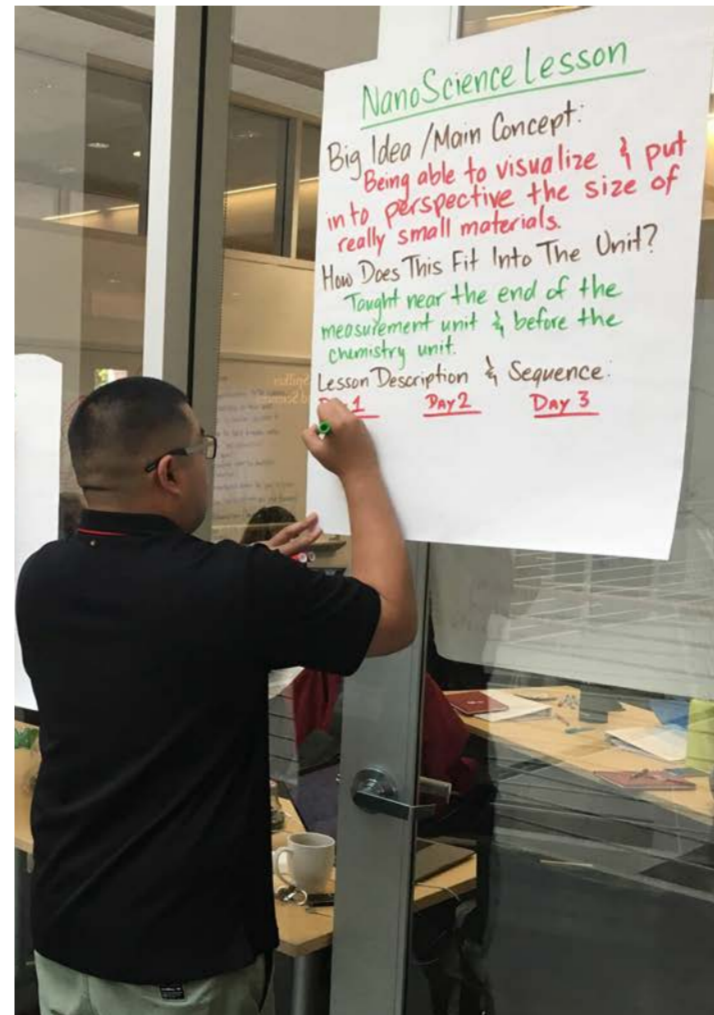

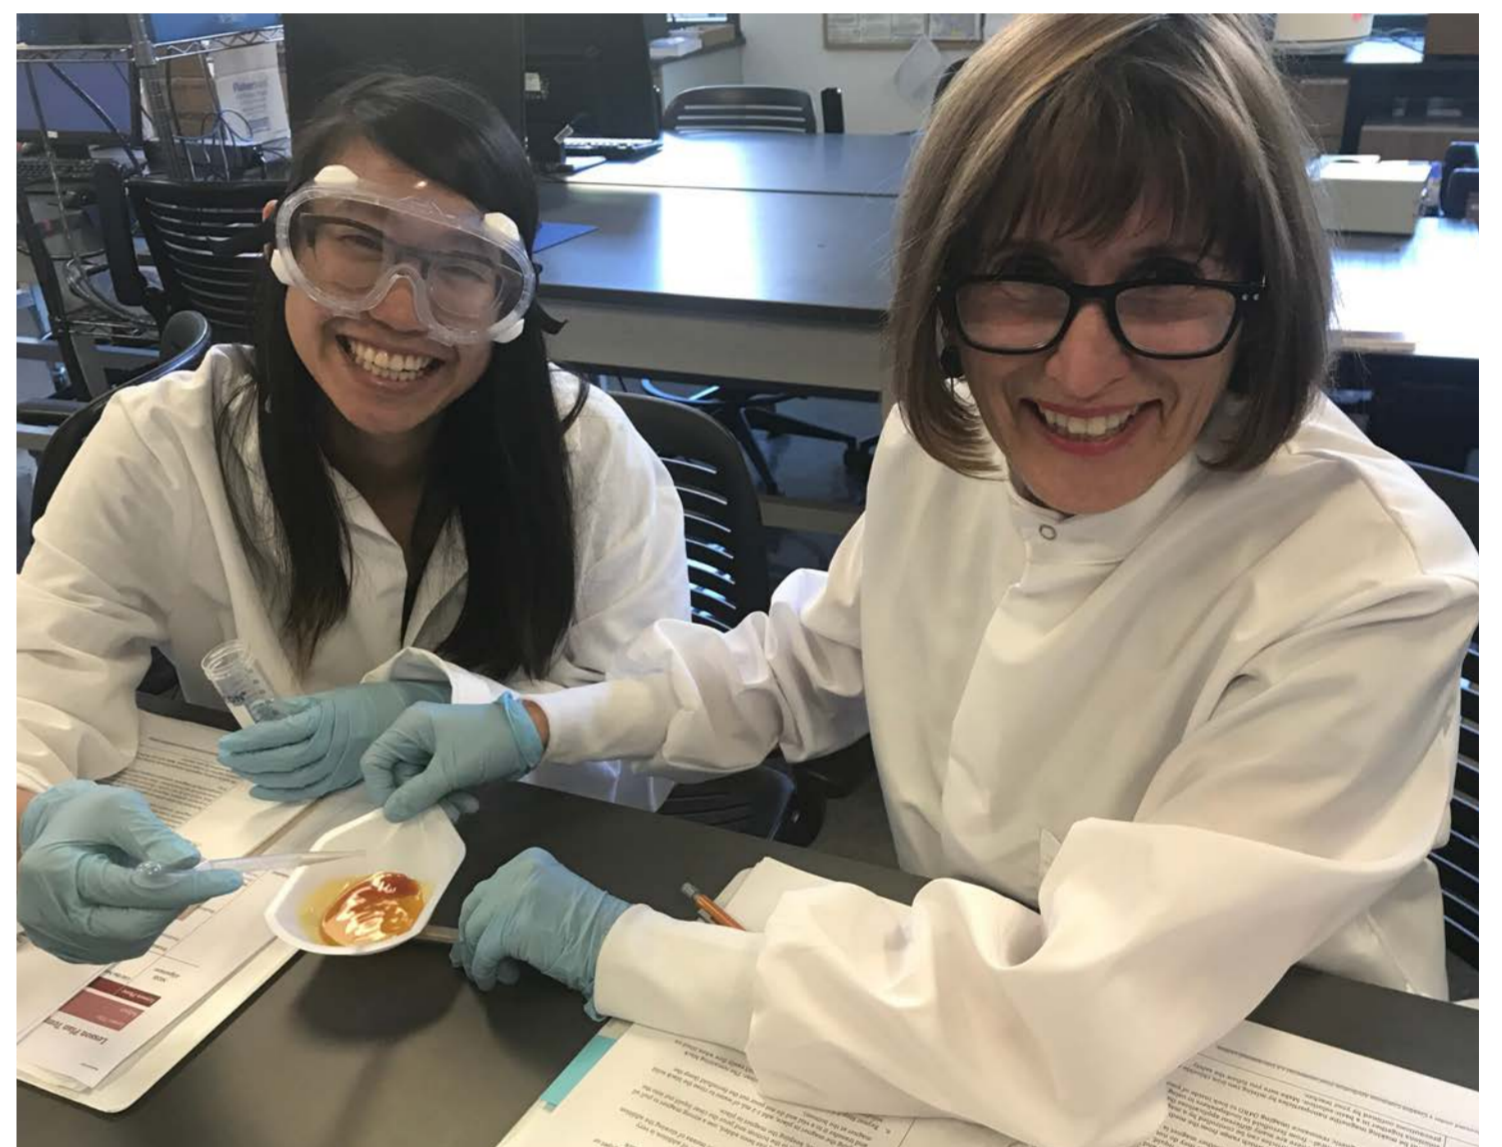

The National Nanotechnology Coordinated Infrastructure at Stanford offers a four-day Nanoscience Summer Institute for Middle School Teachers (NanoSIMST). Selected teachers will learn the underlying physical concepts in nanotechnology and nanoscience in simple terms. This unique learning experience can enrich your current courses through both deepening content understanding and instructional practices.

## Why Join?

- Learn about the cutting edge research at Stanford from guest lectures
- Develop customized, NGSS-aligned activities and lesson plans for your classroom
- Receive stipend upon completion of workshop (\$400) and classroom implementation (\$200)

**June 24 - 27, 2019**

**10:00 am - 5:00 pm**

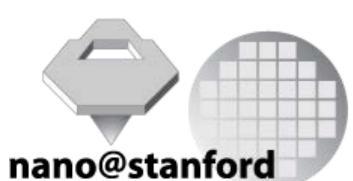

**NOW ACCEPTING APPLICANTS!**

Applications accepted on a rolling basis
